Projects

QUICK-CHAT

REACT.JS, NODE.JS, TAILWIND CSS, EXPRESS.JS, MONGODB, SOCKET.IO, RENDER

Developed a Quick Chat real-time chat application enabling instant messaging between users with a clean and responsive UI.

- Implemented Socket.IO for real-time bi-directional communication to support one-to-one and group messaging. Integrated MongoDB for persistent chat storage and user authentication data.
- Ensured smooth UX with features like message timestamps, typing indicators, and online/offline status. Followed modular component architecture in React for scalability and reusability. Deployed the application on Render for live accessibility.

NEWS-MAG

REACT, BOOTSTRAP, NEWSAPI, VITE, TAILWIND CSS, JAVASCRIPT

Developed a single-page news portal using React, fetching live headlines via NewsAPI.

- Implemented dynamic category filtering with instant, no-reload updates. Built reusable components and custom hooks for API handling, loading states, and error boundaries. Designed a responsive, magazine-style UI with Tailwind CSS, achieving >95 Lighthouse scores. Used Vite for fast development and secured API keys via .env and .gitignore.

PORTFOLIO

REACT.JS, VITE, TAILWIND CSS, FRAMER MOTION, EMAILJS

Built a responsive personal portfolio using React.js, Tailwind CSS, and Framer Motion to showcase projects and skills.

- Integrated EmailJS for real-time contact form handling with toast notifications. Organized static assets via the public/ directory for efficient image delivery.
- Deployed on Render with cross-device compatibility and SEO optimization. Highlighted featured projects with tech stack badges and live previews.
